Job Description: Postgraduate Paediatric Osteopath (Clinic)

Title of Post

Postgraduate Paediatric Osteopath (Clinic)

Accountability

Senior Management Team

Reporting to

Clinic Manager

Staff managed

None

Overall Responsibilities

The post holder will be responsible for providing osteopathic care to paediatric patients within the clinic on alternate Thursdays. They will manage their own patient list, work independently within their clinical scope, and contribute to a high standard of care within the college clinic environment. The role may include occasional student observation, but does not carry any formal teaching responsibilities.

Key Tasks

- To provide paediatric osteopathic care in accordance with current professional standards and regulatory guidance.
- To manage an independent patient list with responsibility for clinical decision-making and appropriate case management.
- To maintain accurate, timely, and confidential patient records in accordance with data protection and clinical governance requirements.
- To liaise appropriately with the clinic reception team regarding scheduling and patient administration (all booking duties will be managed by reception).
- To allow, where appropriate, the supervised observation of treatment sessions by senior students, supporting their professional development informally. To act professionally at all times, demonstrating appropriate behaviour, communication, and boundaries in line with the standards set by the GOsC and

the college.

- To engage with clinic team communications and contribute to maintaining a high quality clinical environment.

Essential Attributes

- Degree or diploma qualification in osteopathy
- Full registration with the General Osteopathic Council (GOsC)
- Minimum of 2 years' post-qualification experience in osteopathy
- Specific postgraduate training and/or demonstrable experience in paediatric osteopathy
- Commitment to professional development and high standards of clinical care

Desirable Attributes

- Experience working in an educational or teaching clinic environment
- Experience supervising or mentoring osteopathic students· Paediatric first aid training
